Tahzeen Contracting Company

Excellence Without Borders

A Multinational Engineering, Industrial Services & Workforce
Solutions Company

Chairman's Message

Leadership Vision

Tahzeen Contracting Company was established with the ambition of creating a dynamic organization capable of supporting the evolving requirements of industrial, infrastructure, energy, and commercial sectors across international markets. Since its inception, the company has expanded its capabilities through disciplined management, strategic planning, and a commitment to delivering dependable solutions that meet the expectations of clients and stakeholders. Our success is measured not only by the projects we deliver, but by the relationships we build, the trust we earn, and the value we create for those we serve.

We remain focused on strengthening our market presence, enhancing organizational capabilities, and pursuing opportunities that contribute to long-term business sustainability and mutual growth. As we move forward, Tahzeen Contracting Company will continue to uphold the principles of integrity, accountability, safety, and performance while supporting clients with practical solutions, qualified resources, and a results-driven approach that reflects the highest standards of professionalism.

Executive Overview

Tahzeen Contracting Company is a diversified multinational company providing engineering, construction, industrial support, oil & gas support, fire protection systems, corrosion control, and specialized technical services across strategic international markets. Through a broad service portfolio and multidisciplinary capabilities, the company supports clients across infrastructure, industrial, commercial, and public-sector developments.

Built on a foundation of practical industry experience and structured business growth, Tahzeen Contracting Company delivers

project support through qualified personnel, efficient resource management, procurement networks, and coordinated service delivery. Its operational model enables the company to respond effectively to diverse project requirements while maintaining consistency, reliability, and performance.

By combining sector knowledge, execution, and client-focused engagement, Tahzeen Contracting Company continues to support complex projects and long-term development initiatives while building lasting partnerships across multiple industries and regions.

Our Journey & Business Evolution

Building Excellence Across Global Markets

Tahzeen Contracting Company has evolved from a contracting business into a multinational organization supporting industrial, infrastructure, energy, and commercial projects across international markets.

2021

Business Foundation

Established core contracting operations and built a foundation in construction, industrial support services, workforce solutions, and project delivery.

2022

Market Expansion

Expanded market presence, strengthened client relationships, and supported a broader range of infrastructure, maintenance, and industrial projects.

2023

Capability Growth

Enhanced technical resources, diversified service offerings, improved operational efficiency, and expanded support across multiple industrial sectors.

2024

Strategic Integration

Consolidated business functions, aligned organizational resources, and strengthened readiness for larger multidisciplinary project opportunities.

2025

Global Transformation

Established Tahzeen Contracting Company as multinational platform delivering integrated engineering, manpower, industrial, and technical solutions worldwide.

About Tahzeen Constracting Company

Tahzeen Constracting Company is a multinational organization established as the strategic evolution of contracting operations founded in 2020. The company was created to consolidate diverse business activities under a unified corporate platform, providing construction, industrial support, workforce services, procurement, technical operations, and infrastructure-related solutions across regional and international markets.

Today, Tahzeen Constracting Company serves as the principal corporate entity overseeing current and future business activities, focused on delivering dependable services, maintaining strong governance, developing organizational capabilities, and supporting long-term business growth.

Corporate Objectives

- Deliver dependable engineering and industrial services across target markets
- Build lasting partnerships with clients, partners, and stakeholders
- Maintain strong standards of safety, governance, and regulatory compliance
- Enhance project delivery through effective planning and resource management
- Develop a capable workforce through training and professional growth
- Expand business presence through strategic market development
- Encourage innovation, accountability, and continuous organizational improvement

Company's Vision & Mission

Our Mission

To deliver dependable engineering, industrial, workforce, procurement, and project support services through qualified resources, efficient execution, and responsible business practices while fostering workforce development, operational reliability, and long-term client value.

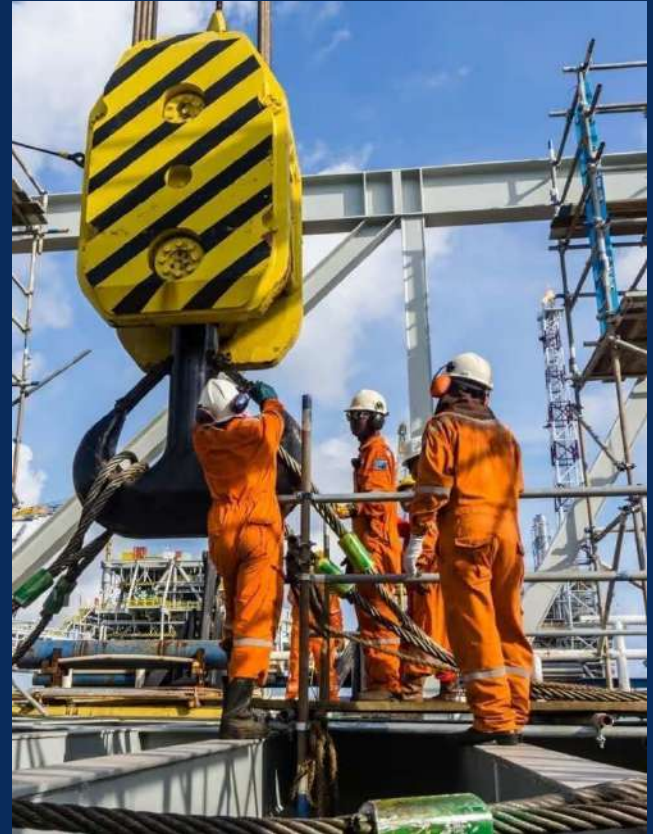

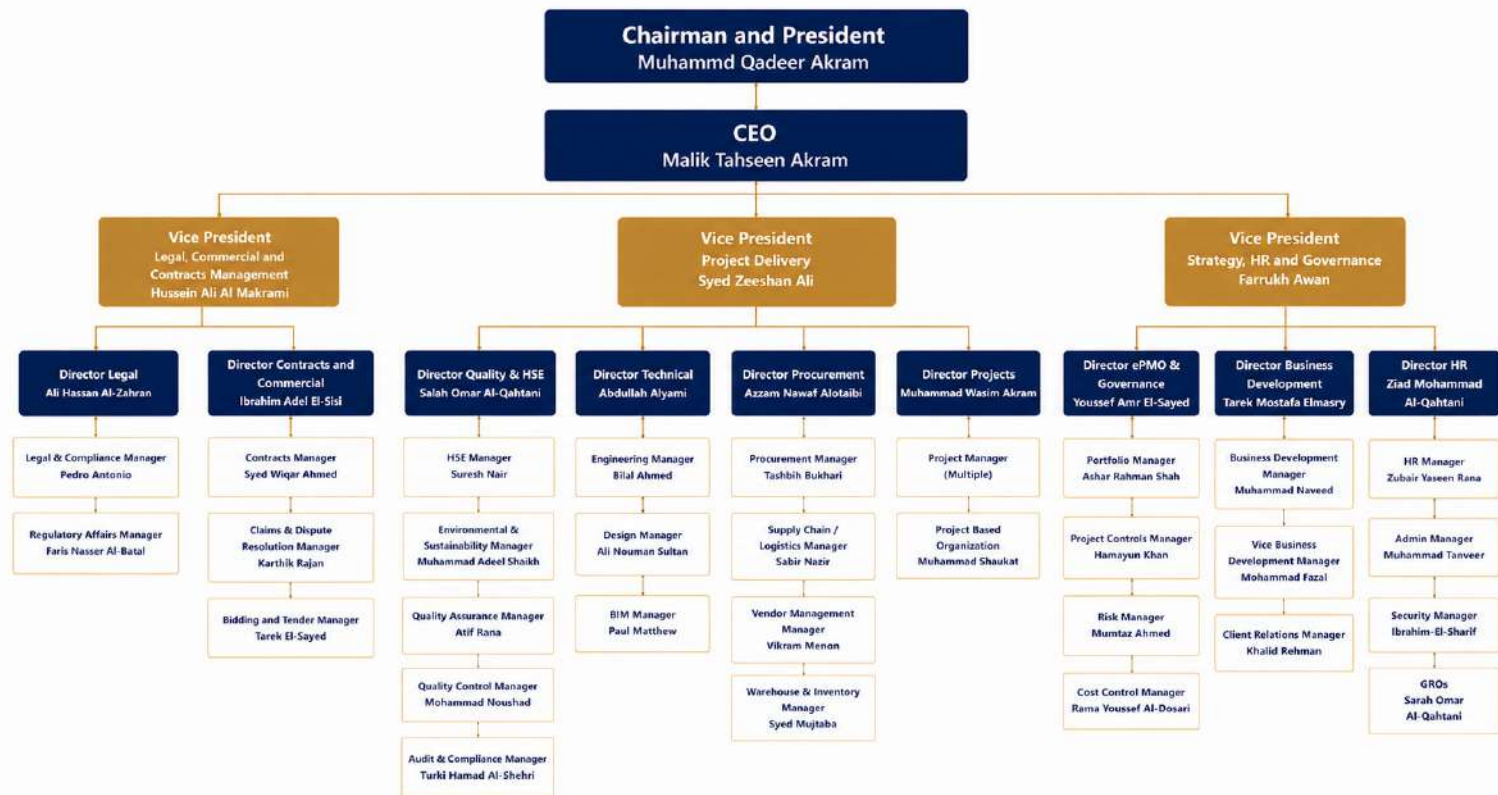

Our Vision

To be a recognized multinational organization supporting industrial, infrastructure, energy, and commercial sectors through integrated services, strong partnerships, and sustainable business growth across international markets.

Core Values

- **Excellence:** Delivering consistent performance, quality outcomes, and client value.
- **Integrity:** Acting with honesty, accountability, and professional responsibility.
- **Reliability:** Meeting commitments through dependable service and disciplined execution.
- **Safety:** Maintaining a proactive culture that protects people, assets, and operations.
- **Innovation:** Encouraging practical thinking, improvement, and business adaptability.
- **Growth:** Advancing organizational capability, market presence, and long-term success.
- **Global Mindset:** Embracing diversity, collaboration, and responsible practices across international markets.

Engineering, Power & Energy Solutions

We provide engineering, infrastructure, power, and energy support services for industrial, commercial, and large-scale development projects. Through multidisciplinary capabilities, qualified resources, and coordinated project delivery, the company supports the planning, execution, maintenance, and operational requirements of diverse sectors while contributing to long-term infrastructure and industrial development.

Construction, and Infrastructure Division

- Civil & structural construction
- Industrial & infrastructure development
- EPC support services
- Maintenance & shutdown projects
- Project management & site execution

Power Projects Division

- Electrical infrastructure development
- Industrial power systems
- Testing & commissioning services
- Maintenance & operational support
- Power distribution & control systems

Oil Field Projects Division

- Oil field construction support
- Shutdown & turnaround services
- Refinery & petrochemical support
- Mechanical & technical maintenance
- Pipeline & process support services

Industrial Projects & Technical Operations

We provide industrial support services covering project facilities, electro-mechanical works, commissioning activities, and technical operations. Through coordinated project execution and specialized resources, the company supports installation, maintenance, testing, operational readiness, and facility support requirements across industrial, infrastructure, and energy-related projects.

Commissioning of Project Facilities

- Equipment & material supply
- Facility installation & integration
- Testing & commissioning
- Turnkey project coordination
- Industrial facility support solutions

Electro-Mechanical Division

- Mechanical & electrical installations
- HVAC systems
- Industrial electro-mechanical works
- Equipment maintenance & commissioning
- MEP project execution

Industrial Services & Technical Operations

- Mechanical, electrical & instrumentation
- Plant installation & commissioning
- Operation & maintenance support
- Shutdown & outage services
- Industrial technical operations

Trading, Workforce & Support Services

We support clients through procurement services, workforce deployment, engineering assistance, and operational support solutions. By integrating qualified personnel, sourcing networks, and project coordination capabilities, the company helps organizations meet project requirements, maintain operational continuity, and support business objectives across diverse industries.

General Trading & Contracting Division

- Construction & industrial material supply
- Procurement & vendor sourcing
- Equipment trading
- Supply chain & logistics coordination
- Global sourcing solutions

Manpower and Workforce Solutions

- Engineers & technical specialists
- Skilled & semi-skilled workforce
- Workforce mobilization solutions
- Compliance & workforce management
- Outsourcing & staffing support

Technical Support & Services Division

- Engineering consultancy
- Site supervision & coordination
- Maintenance support services
- Operational troubleshooting
- Technical advisory solutions

Safety, Protection & Development

We support workplace safety, asset integrity, and competency development through specialized protection systems, corrosion control solutions, fire safety services, and training programs. By helping safeguard personnel, facilities, and critical infrastructure, the company contributes to risk reduction, operational continuity, and the effective development of workforce capabilities across diverse industries.

Fire Fighting & Fire Alarm Systems

- Fire fighting systems
- Fire alarm systems
- Detection & suppression systems
- Testing & commissioning services
- Fire safety compliance support

Cathodic Protection Division

- Cathodic protection system installation
- Corrosion monitoring solutions
- Pipeline & tank protection systems
- Inspection & maintenance support
- Asset integrity management

Training, Competency & Compliance Development

- Technical & vocational training
- HSE certification programs
- Workforce skill development
- Compliance readiness programs
- Competency assessment & development

Core Capabilities

Tahzeen Constructing Company supports industrial, infrastructure, and engineering projects through specialized resources, project coordination, and service capabilities tailored to diverse client requirements.

Strengthening Project Execution Excellence

Tahzeen Constructing Company provides coordinated support throughout the project lifecycle, from planning and procurement to installation, commissioning, maintenance, and workforce deployment. By aligning resources, technical support, and operational coordination, the company assists clients in meeting project objectives while maintaining continuity across critical activities.

Operational Capabilities

- Project planning & execution
- Engineering consultancy & technical support
- Industrial maintenance & shutdown services
- Workforce mobilization & management
- Procurement & sourcing support
- Electro-mechanical installations
- Testing, commissioning & operational support
- HSE management & compliance support
- Technical supervision & project coordination
- Logistics & supply chain support

Global Standards & Commitment

Commitment to Recognized Management Standards

Tahzeen Contracting Company aligns its operations with recognized management standards, regulatory requirements, and industry frameworks that support quality management, environmental responsibility, and workplace safety. Through structured processes, documented controls, and effective oversight practices, the company promotes consistency, compliance, risk management, and responsible business conduct across its activities, projects, and operational environments.

ISO 9001

Quality Management

Establishes structured quality systems ensuring consistent service delivery, customer satisfaction, process efficiency, improvement, and operational excellence.

ISO 14001

Environmental Management

Promotes environmental responsibility through sustainable practices, pollution prevention, compliance management, and continuous improvement.

ISO 45001

Occupational Safety

Strengthens workplace safety through risk management, hazard prevention, employee protection, regulatory compliance, and safety culture.

Strategic Business Strengths

We have established a strong business foundation through diversified services, industry experience, qualified resources, and strategic market engagement. These strengths support effective project delivery, business adaptability, and long-term development while serving industrial, infrastructure, energy, and commercial sectors across regional and international markets.

Competitive Advantages

Our strengths enable us to support varied project requirements, respond to changing market demands, and build lasting relationships through service and practical business support.

- Qualified multidisciplinary workforce
- Established procurement and supply networks
- Experience supporting large-scale industrial projects
- Strong governance and risk management practices
- Adaptable operating structure across industries
- Long-term client relationship focus

Supporting business growth through capability, adaptability, and structured service delivery.

- Diversified multinational business platform
- Broad industrial and support service portfolio
- Experienced project and operational teams
- Flexible project delivery capabilities
- Regional and international sourcing networks
- Commitment to safety and responsible operations
- Capability to support complex project requirements
- Client-focused and service-driven approach

At Tahzeen Contracting Company, Health, Safety, Environment, and Sustainability principles are integrated into our operations, projects, and business activities. We are committed to maintaining safe workplaces, protecting the environment, supporting workforce wellbeing, and promoting responsible practices that contribute to efficient operations.

Our approach is guided by risk awareness, accountability, and regulatory compliance. Through structured HSE programs and ongoing workforce engagement, we seek to strengthen safety performance, environmental stewardship, and organizational responsibility across all areas of operation.

Our Commitments

- Maintaining safe, healthy, and secure working environments for all personnel.
- Preventing workplace incidents, injuries, occupational illnesses, and operational risks.
- Protecting the environment through responsible and sustainable business practices.
- Complying with applicable HSE regulations, industry requirements, and international standards.
- Promoting environmental stewardship, resource efficiency, and pollution prevention initiatives.
- Conducting continuous workforce training, awareness programs, and competency development.
- Implementing proactive risk assessment, hazard identification, and control measures.
- Encouraging accountability, responsibility, and safety leadership at all organizational levels.
- Supporting workforce welfare, wellbeing, and professional development.
- Integrating HSE considerations into project planning, execution, and operational decision-making.
- Monitoring performance through audits, inspections, and continuous improvement programs.
- Delivering sustainable solutions that create positive economic, social, and environmental impact.

Health, Safety, Environment & Sustainability Policy

Safety First. Environmental Responsibility Always. Sustainable Growth.

Our HSE Vision

To foster a zero-harm culture where safety, environmental responsibility, risk awareness, and responsible practices are embedded within every activity, project, and business process.
